

Travis County Floodplain Reforestation Program

Application for Site Assessment and Tree Planting Services

PLEASE NOTE: APPLICATION IS DOUBLE-SIDED

TreeFolks is a local non-profit dedicated to building stronger communities through the planting and caring of trees. Through a national grant from The Nature Conservancy, TreeFolks is leading the **Travis County Floodplain Reforestation Program (TCFRP)**. The TCFRP is a pilot project to help restore degraded streambanks, also known as riparian or floodplain areas, and to potentially generate Carbon+ Credits to offset local pollution. Reforesting streambank areas is one of the fastest ways to enhance downstream water quality and quantity and bolster resilience in the face of the anticipated stressors of urbanization and climate change.

Services include free trees, planting services, and consultations. Fill out the survey below to see if you qualify to receive reforestation services *absolutely free of charge*.
